Dr. James L. Liverman, Director
Division of Biomedical and Environmental
Research

DIVISION OF BIOMEDICAL AND ENVIRONMENTAL RESEARCH, HEADQUARTERS -
REQUEST TO LOCATE (21-2-347)

At a meeting in your office on May 9, 1974, in connection with the DBER-INS joint investigation concerning the disclosure to patients regarding the injection of plutonium in 1945-1947, you asked that the Division of Inspection try to locate the two patients who had been lost to followup.

Attached are two copies of a Memorandum Report of the Division of Inspection which set forth our findings with regard to one of them, Mr.

We will forward you information regarding the other one when it is completed and also on a third one which has come to our attention as also requiring our followup.

J. D. Anderson
Jon D. Anderson
Director
Division of Inspection
