TO H. M. Parker
FROM C. E. Newton *C. E. Newton*
SUBJECT Study of Promethium Metabolism in Humans

File
Daily
1b

I have studied Earl Palmer's document with the above title and believe that it is appropriate to grant Earl's request. I would like to suggest that the Committee make a recommendation to Ron Paul regarding the implementation of the project rather than to respond directly to Earl Palmer. In this way, the Committee will serve in an advisory capacity to Ron.
