STUDY OF PROMETHIUM METABOLISM IN HUMANS

Approval is granted for this study to proceed, subject to the constraints outlined in the memorandum from P. T. Santilli to me on this subject dated 5/5/67.

Please see that the investigators keep proper records and provide Legal copies of the items requested. If during the course of the research it becomes desirable to change the plans beyond what has been approved, you are responsible for submitting the proposed change for review and approval before action.
