at SSRL (1986)

Subject: SSRL Prop. #456 "Iodine Dichromography with
Monochromatic X-ray Beams for Angiography"

Dear Artie,

I have enclosed the memo to me from Jim Davis, Director of ESQA/SAN on the above subject. Since this project has the potential to be one of the most visible SSRL projects with possible great benefits to the general public, I strongly suggest that you implement the recommendations of Jim as soon as possible.

Sincerely,

William C. Gough, Director
