Dr. James G. Sargent, Chairman  
American Medical Association  
Council on National Emergency Medical Service  
535 North Dearborn Street  
Chicago 10, Illinois

Dear Dr. Sargent:

The interest of the Council on National Emergency Medical Service of American Medical Association on the problems relating to atomic energy in time of national emergency is of very real value.

The offer of the Council of American Association to provide sound medical advice in overall planning of medical aspects of National Defense is deeply appreciated. Your offer will be called to the attention of the Advisory Board for Biology and Medicine and a definitive reply to your offer will be forthcoming after consideration by them.

Sincerely yours,

U. S. ATOMIC ENERGY COMMISSION

David E. Lilienthal
