Mr. Alvin A. Luedecke
General Manager
Atomic Energy Commission
Washington 25, D.C.

Dear Mr. Luedecke:

I have just received from a constituent, Mr. Arthur L. Hanson of West Lynnwood, Washington, an inquiry into reports on British claims that U.S. wheat is being contaminated by Strontium 90.

I should appreciate any information you can provide me on whether the AEC has looked into this allegation and, if so, what your findings are.

Sincerely yours,

Henry M. Jackson, U.S.S.
