Elmer B. Harvey, M. D.  
Medical Research Branch  
Division of Biology and Medicine  
Atomic Energy Commission  
Washington, D. C. 20545

Dear Dr. Harvey:

I am enclosing the material from Dr. Vilar that I mentioned to you on the phone. I strongly urge that you obtain additional opinions if there is any question about Dr. Vilar's abilities. I consider the electron microscopy that we have proposed an essential aspect of our study and call your attention to our budgetary request as being very modest for this. This is particularly true since Dr. Vilar will be supporting his efforts from other funds. In light of this and in light of the 8-10% increase in salaries awarded by the University of Washington for non-academic personnel, our efforts will be seriously hampered by any sizeable budgetary reduction in our renewal request.

If there is anything further that you need, please let me know.

Sincerely yours,

C. Alvin Paulsen, M. D.  
Associate Professor of Medicine
