Dr. Elmer B. Harvey  
Medical Research Branch  
Division of Biology and Medicine  
United States Atomic Energy Commission  
Washington, D. C. 20545

Dear Dr. Harvey:

As requested by you in your letter of May 4, I have constituted a committee to review the biometric problems of Doctors Paulsen and Heller who are involved in research projects supported by the Atomic Energy Commission. In addition to myself the committee will consist of Dr. Blair Bennett, of the Department of Preventive Medicine, School of Medicine, University of Washington, and Dr. James Williams of the Department of Statistics, Colorado State University. It had been my hope that we might have a preliminary meeting this month or in early July, but ~~we~~ this does not seem to be possible, ~~and~~ largely due to my own conflicting obligations, it now appears that we would not be able to meet before September. I am therefore writing now to the committee members and to Doctors Paulsen and Heller to suggest a meeting during the week of September 11-15, and if some days within this week can be found which are agreeable to all we will proceed on that basis. I will inform you as soon as a specific date within that period has been selected so that if you wish any of your staff to attend these meetings they may make plans to do so.

Yours sincerely,

Douglas G. Chapman
