FOLDER CONSENTS FILE REPORTS

February 14, 1980

TO: B. L. Gledhill

SUBJECT: Human Subjects Approval - 80P-106-01

This memorandum is to confirm that at its January 18, 1980 meeting, the LLL Human Subjects Committee approved your use of human subjects in your collaborative work with UCSF titled, "Sperm Protamine Evaluation in Normal and Infertile Men".

The Committee has approved this activity subject to the following conditions:

1. The identity of the donors must be protected through the coding of samples.
2. This Committee and the Committee on Human Research at UCSF Medical Center must be notified if any abnormalities are found during experimental procedures.
3. Any changes in protocol must be approved, in advance, by this Committee and the Committee on Human Research at UCSF Medical Center.

This approval has been granted, in part, based upon the approval of the Committee on Human Research at the University of California San Francisco Medical Center. This Committee understands that UCSF Medical Center holds a General Assurance. If the approval of the UCSF Medical Center is terminated or modified in any way, the LLL Human Subjects Committee should be notified at once.
