Joe W. Howland, M. D.
The University of Rochester
Post Office Box 287 - Station 3
Rochester 20, New York

Dear Doctor Howland:

I wish to thank you for your excellent summary on
. Unfortunately, I have not seen him since his
hospitalization although he had called in once or twice while
I was away on vacation. I am enclosing a copy of his hospi-
tal discharge summary. As you can see, everything cleared
up rather rapidly and I believe that this was acute gastro-
enteritis and secondary idiopathic labyrinthitis. He called
to say that he has done well since he left the hospital and
since he has followed the bland diet. I will keep you in-
formed of any further events since I know you are quite in-
terested in a follow-up on this man.

I assume he will be here for awhile since he is going to
school with the computer division which has their one and
only plant here in Phoenix.

Thanks again for your excellent summary.

Very sincerely yours,

Edward B. Waldmann, M. D.
