Subject: Redesignation of the Medical and Health Sciences Division,

DRAU as a WHO Collaborating Center for Radiation Emergency Assistance

Jim:

Attached is a copy of the letter from the Pan American Health Organization officially designating this division of DRAU as a WHO Collaborating Center for Radiation Emergency Assistance. The letter lists the tasks and responsibilities that result from this appointment. Since and none are proffered by WHO, we attempt to carry these tasks out within our operational budget after requesting your approval. Sometimes, as in the case of the Ciudad Juarez accident we have to ask you for special financial assistance. So far we have been able to manage this way but largely because requests for such services have been few and far between.

Pan American Health Organization  
Pan American Sanitary Bureau, Regional Office of the  
World Health Organization

*that will be in the copy  
DOE ] ~ ~*

The letter lists the tasks and responsibilities that result from this appointment. Since no special funds are provided by DOE and none are proffered by WHO,

*Frances is mailing you a copy.*
