FOLDER LUSHBAUGH MEXICAN ACCIDENT  
COBALT-60

Dr. Herman M. Roth, Director  
Research and Development Division  
U.S. Atomic Energy Commission  
Oak Ridge, Tennessee

Subject: TRANSLATION OF "OBSERVATIONS ON THE ACCIDENTAL  
EXPOSURE OF A FAMILY TO A SOURCE OF COBALT-60"

Dear Dr. Roth:

We are transmitting three copies of Dr. Frank V. Comas' translation of the report on the Mexican Cobalt-60 accidental exposure. This translation from the Spanish was a part of the NASA Retrospective Studies, and copies have been made available in various AEC organizations to personnel we believe would have an interest in the document. Also enclosed are copies of the distribution list and the note that went out with the report.

If you need additional copies of the report, please let us know. We should appreciate your forwarding two copies of the translation to the Division of Biology and Medicine.

Sincerely yours,

Original Signed By  
Vincent E. Parker

William G. Pollard  
Executive Director
