REQUESTS FOR MANCUSO REPORT COO/3423-3 (FINAL REPORT NO. 13,
 DATED SEPTEMBER 30, 1977)

When I received your approval on December 2, 1977, for the
 release of the subject report to a television station repre-
 sentative through the Richland Operations Office, you asked
 to be notified of any future requests coming to my attention.

This is to inform you that the American Nuclear Society also
 asked for a copy of the report. We have since received a
 copy, which was reproduced and provided to ANS.
