PRIVACY ACT MATERIAL REMOVED

Dear Walt:

I've enclosed a copy of the letter that was recently sent to me by attorneys. As you will note, he appears to be off to a bad start with the spelling of my name. Perhaps his attorney has an office close to (or below) his physician? At any rate, I've sent them some of the material which is available in the open scientific literature (National Technical Information Service) with a note to the effect that I would be willing to testify and that they should possibly include an additional witness who was involved with this incident from its inception.

I will continue to keep you informed of how this matter progresses and ask only that you keep the lawyer's letter itself for your personal information. Thanks for this consideration.

I will be in touch. Best regards.

Very truly yours,

Norman Cohen, Ph.D.  
Assistant Professor  
Environmental Medicine

NC/fl

Encl.
