FOLDER 2-4 [REDACTED] SON DTPA TREATMENT MAY 7, 71-

Dr. Walter Weyzen
U.S. Atomic Energy Commission
Division of Biology and Medicine
Washington, D.C. 20545

Dear Dr. Weyzen:

Following up on our conversation at Brookhaven this week, I am sending you the attached curriculum vitae on Dr. Peter Vitale. He was recommended to carry out the DTPA administration to Mr. [REDACTED] and his son, [REDACTED], in Albany. The recommendation came from Dr. DuMont F. Elmendorf, Jr. who is the [REDACTED] family's physician. Dr. Elmendorf felt that he was not qualified in the area of radiation medicine and that the treatment should be directed by our group with its administration and monitoring for side effects to be performed by Dr. Vitale. If you consider this a satisfactory arrangement and so indicate to me, I will then pursue the matter further with Mr. [REDACTED].

I enjoyed the opportunity to talk with you at the Accident Course and look forward to hearing further from you.

Sincerely yours,

Niel Wald, M.D.
Head, Department of Radiation Health
