Note to James Liverman

Early this January I received a letter from Dr. Irwin Bross, Director of Biostatistics at the Rosewell Park Memorial Institute in Buffalo. In the letter, Dr. Bross was critical of the way ERDA has handled the review of the work of one Dr. Bertell.

A member of my staff has acknowledged Dr. Bross' letter and indicated that I would try to get him a "progress report" on the review. Are Union Carbide and the University of Rochester currently reviewing her work? If so, when is the review to be finished?

Attached is a compilation of material related to the case provided us by Dr. Sidney Marks, and a copy of the letter by Dr. Bross.

  
Bart J. McGarry  
Assistant Director  
for Public Services  
Office of Public Affairs
