Dear [REDACTED]:

This office wishes to acknowledge your letter of April 10th, 1948, concerning the treatment of the illness which you describe.

Unfortunately, radioactive isotopes are effective only in a few specific diseases and that which you describe can in no way be benefited by radioactive therapy.

May I respectfully suggest that you return to your local physician for whatever assistance he can give you.

I very much regret that we are unable to be of help to you in this difficult time.

Sincerely yours,

Albert H. Holland, Jr., M.D.
