Col. William D. Fleming
Director, Medical Division
Corps of Engineers
Office of the District Engineer
Manhattan District
Oak Ridge, Tennessee

Dear Colonel Fleming:

I have your letter of 26 September 1946 relative to the proposed work by Dr. Chanutin of the University of Virginia.

Dr. Chanutin's proposed research appears to me in general to be a very worthy and interesting project. From the brief description enclosed with your letter I suspect that it is rather closely allied to certain work which was done during the war by Dr. E. S. G. Barron of the University of Chicago under the auspices of the Metallurgical Laboratory. After Dr. Chanutin is cleared, it will of course be easy for him to interview Dr. Barron and find out what the status of the latter's work is at the present time.

Sincerely yours,

Raymond E. Zirkle
