ABSTRACT
354
Advisory Committee

Dear Major Brundage:

I spoke with Colonel Warren several days ago concerning the Chicago Committee Meeting on December 6 and informed him that in all probability, I would not be able to attend. We are expecting an addition to our family sometime during the first week of December, and I think that I shall have to remain here prior to, during, and for a sufficient period of time subsequent to that event. Consequently, no other immediate date would be any better than the one suggested, and I think you will just have to count me out for this particular meeting.

Very truly yours,

James H. Sterner, M.D.
