Re: Project 2.51 Support of Projects 30.1 and 30.2

Reference: Conf. Ltr., J. P. Mitchell, Chief, Radiological Division, CRL, to T. B. Cook, Jr., Sandia Corp., dated 27 October 1955, Re: Project 2.51 Support for Projects 30.1 and 30.2 (Kickapoo and Lacrosse, respectively)

Project 2.51, in the referenced letter, agreed to supply neutron detectors and counting support for Projects 30.1 and 30.2. This support is required to provide environmental neutron data for each project. These requirements have been firmed with Captain C. W. Luke of Project 2.51 and are as follows:

Project 30.1

Four each gold, gold-cadmium, and sulphur detectors to be supplied for use along the 290 foot column rising directly beneath the shot cab on Kickapoo. Project 2.51 is to count these samples upon recovery by Project 30.1 personnel.

Four each plutonium and uranium detectors are being supplied by Project 30.1. They will be in copper containers as requested by CRL. Project 2.51 is to count these samples upon recovery by Project 30.1 personnel.

Project 30.2

Ten each gold, gold-cadmium, and sulphur detectors with holders to be supplied for use adjacent to and inside the Mc-5's and TX-15-XI's used on the vulnerability study. Project 2.51 is to count these samples upon recovery by Project 30.1 personnel.

Captain C. W. Luke of Project 2.51 has stated that this support will require no additional funds.
