PURPOSE: Budget Justification Authorization Closing Notice

TYPE: Annual Specific Reimbursable

SUBJECT: Aerospace Nuclear Reactor Safety

UNCLASSIFIED

STATEMENT:

This annual project covers the work Sandia Corporation will undertake as the "integrated" aerospace nuclear safety contractor for the Division of Reactor Development of the AEC. The program was authorized March 15, 1962.

Expenditures for FY '63 are expected to be much larger than FY '62 and are planned to be spent in the following manner:

- Participation in a SNAP 10A flight test in January 1963.
- Design, development, fabrication and evaluation of fifteen reentry vehicles containing telemetry packages.
- Design and development of a ground telemetering checkout station.
- Design and development of ground and airborne optical instrumentation equipment.
- Placement of development contracts for studies of the basic phenomena of burn-up and dispersion.
- Placement of contracts for extensive testing to determine burn-up phenomena.

Plant equipment for this program will be procured on Plant Specific 6046.
