February 1, 1972

Leslie L. Bennett, M.D.
 Chairman, Committee on Human Experimentation
 Department of Physiology
 University of California Medical Center
 San Francisco, California 94122

Dear Dr. Bennett:

I have compared the research precis sent to me in December by Erica Wood with our SIMPR files, and I find that protocols of all research projects initiated since I took over as chairman of the SIMPR Board of Directors on September 12, 1967 are in our files and have been reviewed by the Board serving in its capacity of Peer Review Committee. Methods of review were detailed to you in my letter of November 8, 1971. To be specific, I will list below the protocols as titled in the precis with the name of the principal investigator.

1. CHARACTERIZATION OF TRANSFER FACTOR - Epstein
2. EFFECTS OF DRUGS ON EEG SLEEP PATTERNS - Feinberg
3. INDUCTION OF INFLAMMATORY DERMATOPHYTOSIS - Epstein
4. DMSO--DRUG INTERACTION STUDY - Maibach
5. TOLERANCE STUDY OF W-7320 - Maibach
6. CLEOCIN HFC LEVELS - Epstein
7. HALOTESTIN SUB-CHRONIC TOLERANCE STUDY - Epstein
8. PILOT STUDY OF SK&F 29770 - Maibach
9. MA-1443 TOXICITY STUDY - PHASE I - Epstein
10. ANTIBIOTIC STUDY - Epstein
11. SELENIUM-TOCOPHEROL BLOOD LEVELS STUDY - Maibach
12. CLINICAL STUDY OF U-26,225A INJECTABLE: SHORT TERM DOSE TOLERANCE - Epstein
13. COMPARISON OF FLUOROMETHOLONE AND DEXAMETHASONE - Epstein
14. PROGLUMIDE TOLERANCE STUDY - Epstein
15. SUB-ACUTE TOLERANCE STUDY OF Ro-5-9110/1 - Epstein

The following protocols were initiated before my tenure as chairman of the Board. However, protocols corresponding to the precis titles are on file in the SINPR office at Vacaville, and our research coordinator, Mr. Urbino, assures me that they were all reviewed by the previous board. These studies include

1. AEDS MOSQUITO STUDY - Maibach
2. FURTHER STUDIES OF PATCH REACTIONS IN POISON OAK DERMATITIS - Epstein
3. SKIN SENSITIVITY STUDY - Maibach
4. SKIN TEST REACTIONS TO METALS - Epstein
5. PLAGUE VACCINE IMMUNIZATION STUDY - Meyer
6. ORGANIC PHOSPHATES TOXICITY STUDY - Rider
7. ANTISECRETORY AND ANTACID PHARMACOLOGICAL AGENTS STUDY - Rider
8. STUDY OF FRICTION BLISTER FORMATION IN MAN - Epstein

If you wish more information concerning review of these studies, I am sure that Mr. Urbino would be happy to provide it for you.

I don't necessarily need copies of the other projects Mr. Bowers sent you for which you could find evidence of review, but if you have at least the titles and name of the principal investigator I could check and make sure that these projects were reviewed by our committee as well as the UCSF committee.

Sincerely yours,

Henry W. Elliott

Henry W. Elliott, M.D., Ph.D.
Chairman, Board of Directors
