"CONFIDENTIAL"

President Robert G. Sproul  
University of California  
Berkeley, California

Dear President Sproul:

Dean Sayth tells us that you have the impression that the committee to which you appointed us, with Professor Barr as Chairman, approved of the establishment of a metabolic clinic at Cowell Memorial Hospital.

We wish to correct this impression. We did not consider it our function to approve or disapprove such a unit but only to suggest how it could function safely if it had to be set up.

The fact is that we two felt that such a unit should not be established and a third member had considerable reservations in this regard.

Yours sincerely,
