OFFICE OF THE PRESIDENT

October 23, 1946

Dr. John H. Lawrence
Donner Laboratory
Campus

Dear Dr. Lawrence:

The problem of the safe use of radioactive isotopes would seem to be an all-University problem and I therefore feel it would be advisable to set up a committee to pass on the use of such material on all campuses of the University.

I should like very much to have you serve as chairman of this committee, the members of which will be Professor I. L. Chaikoff, Professor David Greenberg, Dr. J. G. Hamilton, Professor Roy Overstreet, Dr. Earl Miller, and Dr. Robert Stone.

Your willingness to accept this responsibility is greatly appreciated.

Yours sincerely,

Robert G. Sproul
