President Robert G. Sproul  
250 Administration Building  
University of California  
Berkeley, California

Dear President Sproul:

I enclose two copies of the Organisation Chart of The Langley Porter Clinic.

The Department of Finance has required all State Departments to work out this type of chart and stipulated the exact manner in which it should be done. The enclosed chart indicates the relationship of the University of California to The Langley Porter Clinic as a part of the organization. I believe that this is a correct statement of organization of The Langley Porter Clinic and the relationship of the University of California to it. I should, however, like very much to have you go over the chart and make sure that it conforms to your understanding of the setup of The Langley Porter Clinic and the University of California's rights and responsibilities. If you feel that anything stated is incorrect, or that there should be any changes or additions, I shall be very pleased to have your suggestions. The Department of Institutions has approved it as set up and indicates that I conform to their ideas of relationship of both the University of California and the Department of Institutions to The Langley Porter Clinic.

Very truly yours,

KARL M. BOWMAN, M.D.  
Professor of Psychiatry
