LOS ANGELES: OFFICE OF THE BUSINESS MANAGER

January 12, 1954

CHANCELLOR RAYMOND B. ALLEN:

Council on Pharmacy and Chemistry
of the American Medical Association
\$690.00

Attached are an original and seven copies of an application for a grant-in-aid submitted by Dr. John S. Lawrence of the Department of Medicine, School of Medicine, Los Angeles, indicating that the request was initiated by Dr. James A. Halsted, Associate Clinical Professor of Medicine, for \$690.00 of the Committee on Research of the Council on Pharmacy and Chemistry of the American Medical Association. After the required approvals, the original and five copies should be forwarded to Dr. E. M. K. Geiling, Chairman, Subcommittee on Grants-in-Aid, Committee on Research of the Council on Pharmacy and Chemistry of the American Medical Association, 535 North Dearborn, Chicago 10, Illinois. There are two additional file copies.

Dr. Lawrence has indicated in his letter of January 8, 1954 that the application for the grant-in-aid at \$690.00 is for the acquisition of scintillation counting equipment which is used to measure radioactivity.

Space is available at the Veterans Administration Center for the use of the equipment and no research program will be displaced on the Los Angeles campus of the University in connection with the acquisition of this equipment.

Neither University overhead nor provision for participating in the State Employees' Retirement System is involved in the application for the grant-in-aid which is satisfactory to the Business Office.

If the request has your approval, it will be appreciated if you will so indicate in the space provided and forward it for the additional approvals and submission to its destination as the equipment will be used in support of the investigation entitled "Absorption of Vitamin B₁₂ in Man."
