President Robert G. Sproul
250 Administration Building
Campus

Dear President Sproul:

Your State-wide Committee Advisory to the Division of Medical Physics took a long time to prepare a report upon which there could be agreement. However, the last signatures have just been affixed and it is with satisfaction that I submit the report. There are certain aspects of the report and the operations of the Committee which might be of use for you to have me discuss personally. It would be a privilege to provide this information should you wish it.

Very sincerely,

Charles E. Smith, M.D.
