SAN FRANCISCO: THE MEDICAL CENTER
OFFICE OF THE BUSINESS MANAGER

August 26, 1953

President Robert G. Sproul
University of California
Berkeley

Dear President Sproul:

Attached are our worksheets covering an application for a grant-in-aid with the United States Public Health Service submitted by Dr. I. S. Edelman, Assistant Professor of Medicine, for work on a project entitled, "Effects of Carbonic Anhydrase Inhibition on Fluid and Electrolyte Metabolism". The application is for the period September 1, 1953 to July 31, 1954 and is in the amount of \$486.

The funds requested are for support of the research program of Dr. Judith Nadell, Public Health Service Postdoctorate Research Fellow. Grants in the amount of \$500 are allowed by the U. S. Public Health Service to cover the cost of supplies and equipment. Retirement contributions are therefore not included since no salaries are to be paid. Overhead is provided at 8% of the sub-total.

Adequate space and facilities are available at the Infectious Diseases Laboratory, San Francisco Hospital.

The application has been reviewed and processed in all offices concerned on this campus and is recommended for approval.

Very truly yours,

H. H. Hixson
H. H. Hixson
Business Manager

cc: Mr. J. H. Corley
Mr. S. C. Bateman
