

3 March 1971

Dr. S. Cohn

Dr. E. P. Cronkite

CIRC #36, 36C and 36 D

BEST COPY AVAILABLE

This memorandum will confirm our conversation yesterday in which I removed the suspension of the subject CIRC's on the basis your proposals for assuring complete medical records should satisfy the requirements of the Hospital.

This will also confirm my conversation with Dr. Wallach assuring him that there need be no interruption in the handling of hospital in-patients.

I shall see that the questions raised in your memorandum of March 1, 1971 are answered and in the process will hold meetings with you, Dr. Dahl and others as they may be involved. In the course of these meetings we should establish for each CIRC numbered and lettered project the single sponsoring physician who will have the final responsibility for the clinical care and treatment of individuals participating in the respective projects.
