Upton, L.I, New York 11973

Dear Al:

Your letter of April 26 just arrived. I am glad to learn that
s history was mailed Friday and that you hope to get
history in the mail yesterday with Hagen coming up. Somehow the list
of histories that I had here failed to show and as being
in our files but they are and I have them. As you said even the best
plans from time to time get confused. I am sorry to learn of

's auto accident and hope that she is not in for a long period of
hospitalization. Auto accidents can be extremely hazardous to one's
continuing capabilities. Was she injured on the way to and from work
or was this a City accident? Remember me to all my friends there and
with very personal regards, I am,

Most sincerely,

Lee E. Farr, M.D.
Professor of Nuclear and
Environmental Medicine
The Medical Research Center

Brookhaven National Laboratory
Upton, L. I., New York
