Alvin C. Graves
Leader, J-Division
University of California
Los Alamos Scientific Laboratory
P.O.Box 1663
Los Alamos, New Mexico

Dear Dr. Graves:

The enclosed letters are self-explanatory. I think it an excellent idea for CDR Richard H. Lee, his associate, Lt. CDR Chambers; and if possible Dr. Herman Pearse of Rochester to visit J-Division for a conference concerning their flash burn studies (Project 30, Bio-Medical Test Program). It is hoped that such a conference will help them to arrive at a suitable design for exposure units as soon as possible.

I will appreciate it if you can approve their visit at a time when they can confer with J-7 Division.

Sincerely yours,

GEORGE V. LEROY, M.D.
