Special Assistant to the Deputy  
Director for Science & Technology  
Defense Nuclear Agency  
Washington, D. C. 20305

Dear Bob:

Walt Nervik's letter of June 7, 1973, to me forwards copies of viewgraphs used at the May 22 RARG meeting. As a member of RARG it is certainly appropriate that you have the enclosed copies. I hope, however, that you will adhere to the restrictions Walt places on the use of this information. These are most appropriate in the light of the status of the survey report and the preparation of AEC recommendations regarding radiological aspects of cleanup and rehabilitation of the stoll.

Sincerely,

Original Signed By  
Nathaniel F. Barr
