Dr. J. Garrott Allen  
Professor of Surgery  
Stanford University Medical Center  
Stanford, California 94305

Dear Dr. Allen:

Thank you for your letter of June 14, 1974. I regret the  
bother that we may have caused you and appreciate your looking  
further into the matter after our meeting.

Sincerely,

Sidney Marks, M.D.

Dear Doctor Marks:

I have been through my Manhattan District files, as I promised you I would do, but have been unable to turn up anything pertinent to your questions of April 19th. There are reports that I am sure have long since been declassified, and a lot of administrative memorabilia, but no evidence regarding the questions asked.

It is hard to know when to throw away such cumbersome records, although I would really like to. Of those that reached me, I think mine are still fairly complete. I have made an honest search, and the AEC is welcome to the entire collection of records if they wish them.

I assume you checked with the hospital Record Room. If the individuals in question had been admitted for metabolic studies, would the complete records not be there, probably by now on microfilm? There should be some trace of them. The Record Room has always been an excellent one.

I am sorry I have no further suggestions to make, and only wish I had some additional leads to work from.

Sincerely yours,

  
J. Garrott Allen, M.D.

cc - Leon Jacobson, M.D.
