Argonne, Illinois 60439

Dear Andy:

This letter is to inform you that Evan Campbell of our Industrial Hygiene Group will be in contact with you and some of your staff concerning bioassay samples recently collected from early plutonium recipients. Evan has had much experience in the area of plutonium bioassay and may be able to provide some assistance to the CHR. I will keep you informed of our progress and results.

I look forward to our committee meeting at the CHR in October. Best personal regards.

Sincerely yours,

Chester R. Richmond
Alternate Health Division Leader

Dear Chet:

Many thanks for your letter of September 7, 1973 about the bioassay samples for plutonium. Dr. Robert Larsen of CHR discussed details with Evan Campbell and other LASL people at the Jackson Hole meeting last week. Evidently, they worked out very satisfactory arrangements and we can expect worthwhile benefits to both our laboratories.

I am looking forward to seeing you in October.

With best regards,

Sincerely yours,

Andrew F. Stehney
Deputy Director
Center for Human Radiobiology
