VOLUNTARY CONSENT FOR PERSONAL PARTICIPATION
 IN SCIENTIFIC HUMAN STUDIES FOLDER PERSONAL PARTICIPATION IN
 VOLUNTARY CONSENT FOR
 SCIENTIFIC HUMAN STUDIES

I, [REDACTED], do hereby acknowledge that I have
 volunteered as an AEC employee to participate personally in a
 scientific investigation promoted by and for the Atomic Energy
 Commission. I understand the study requires me to take internally
 a small quantity or quantities of radioisotopes which has been
 estimated by the investigators and the ID Medical Branch to deliver
 less than 10 per cent of the radiation guide limits permitted me
 for occupational radiation exposure. I understand that a documented
 record of these isotope studies will be on file with the ID Health
 and Safety Division as part of my occupational exposure and/or
 medical record.
