AFR1940913015b

From: Commanding Officer, National Naval Medical Center, Bethesda,
Maryland 20014
To: Division of Material Licensing, Atomic Energy Commission,
Bethesda, Maryland 20014
Via: Chief, Bureau of Medicine and Surgery, Department of the Navy,
Washington, D. C. 20390
Subj: Amendment to NNMC Broad Byproduct Material License No. 19-02691-05;
request for
Encl: (1) Protocol For Allogeneic Bone Marrow Transplantation In Patients
With Aplastic Anemia Or Hematologic Malignancy
(2) Medical Isotope Committee Meeting Minutes

1. On the basis of the enclosed protocol and the recommendation of the NNMC Medical Isotope Committee, an amendment to License No. 19-02891-05 is requested to allow the use of the Irradiation Procedure, Appendix D of enclosure (1) at the Armed Forces Radiobiology Research Institute Cobalt Facility by the Radiation Therapist at the U.S. Naval Hospital, Bethesda. Patients will be only those meeting the requirements of the protocol as selected by the Bone Marrow Transplantation Committee.

2. It is understood that, if approved, the AFRRRI license will be modified to allow for human use.
