Captain R. Pomerantz
Radiation Sterilization Officer
Quartermaster Food & Container Institute
1819 West Pershing Road
Chicago 9, Illinois

Dear Captain Pomerantz:

I am inclosing sufficient copies of "Plans for Chronic Toxicity Studies on Irradiated Foods" to be considered for initiation at the Medical Nutrition Laboratory in the near future, for distribution to the members of the National Research Council Advisory Board to the Quartermaster Research and Development Committee on Foods, Subcommittee on Radiation Sterilization of Foods. It would be appreciated if you would forward a copy of the inclosed material to each of the members of that committee for their evaluation and whatever advice and recommendations they may care to offer to the Chairman of your committee.

Sufficient copies of the application for a research contract by G. H. Benham, Ph.D., entitled "Subacute Toxicity of Irradiated Foods" have been forwarded to you this date for distribution to the members of your committee. As soon as the application for a research contract, as submitted by L. J. Teply, Wisconsin Alumni Foundation, has been reproduced it will be forwarded to you for distribution to the members of your committee.

Sincerely,

1 Incl
