SUBJECT: Review of Application for Research Contract Renewal

THRU: Commanding General
Walter Reed Army Medical Center
Washington 12, D. C.

TO: Director
Walter Reed Army Institute of Research
Walter Reed Army Medical Center
Washington 12, D. C.
ATTN: Dir. Div. of Nuclear Med & Chem

1. The inclosed copy of research proposal renewal entitled, "The Influence of Total-Body X-Radiation on the Kinetics of Erythrocyte Enzymes as a Biological Dosimeter", has been submitted for our consideration by Dr. D. A. Rappoport of Baylor University College of Medicine, Houston, Texas.

2. Attached hereto is Dr. Rappoport's progress report for work conducted under the above contract covering the period June 1, 1957 to May 31, 1958, forwarded for your retention.

3. Request that you review the attached proposal and furnish information as to whether or not this study should continue to be supported by the Army Medical Service.

FOR THE SURGEON GENERAL:
