1. Your attention is invited to attached correspondence concerning [illegible] of SFC (E-7) W. C. Garrison, RA 17256447 and SP5 T. G. Grew, RA 25731192, while on duty at the SM-1A Nuclear Power Plant, Fort Greely, Alaska.

2. Enclosure 2 indicates the period during which these two men should not be exposed for further radiation. In addition, it is recommended that these individuals be cleared by appropriate medical authorities before they are permitted to engage in activities which will expose them to further radiation.

3. DD Forms 1141 were erroneously released to these individuals to hand carry to Fort Greely, Alaska without a record of their over-exposures being entered on these forms. It is requested that the required entries showing overexposures as indicated in attached correspondence be entered in the DD 1141's by the Surgeon of Fort Greely, Alaska.
