1. Your request for exposure histories for William F. Marshall and Jobst Brandt has been forwarded to this office. In order to obtain the records requested in your letter we will need the following information:
 - a. The exact and complete addresses of subject individuals while they were being monitored for ionizing radiation. This is to include the installation address code assigned by Lexington-Blue Grass Army Depot for photodosimetry service, if possible.
 - b. The periods of time by dates (from/to) during which these individuals were monitored at each named duty address.
2. Please ascertain that the above-named individuals were monitored by film badges during their tenure at respective duty stations.
