DEPARTMENT OF RADIOLOGY

August 13, 1964

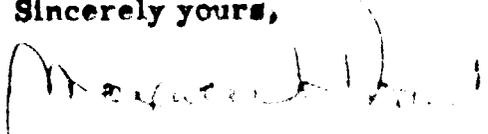

Lieutenant General Leonard Heaton, M. D.  
The Surgeon General  
Department of the Army  
Washington 25, D. C.

Dear General Heaton:

At the University of Miami, we are in the process of reviewing our policies governing participation of healthy human beings as subjects in research.

In view of the extensive experience of the Army Medical Service in this field, it would be very much appreciated if you could furnish me with the present official policy of the Army on this subject. Also, we would appreciate any other policy statements used by the Department of Defense and other agencies or organizations.

Sincerely yours,

  
Maxwell Dauer, Ph. D.  
Professor of Radiological Physics
