Dr. Shields Warren
Division of Biology and Medicine
Atomic Energy Commission
Washington 25, D. C.

Dear Doctor Warren:

The enclosed memorandum is I think pretty self-explanatory. The material presented at the meeting on January 18th is just about transcribed and ready to go to the men who presented it for their corrections. When this is done we will distribute the final copies to the membership of this all-day meeting which will include Dr. Hardie of your staff. You will see from the notes I enclose today that we are perfectly content to have this material used as well as the recommendations herein contained in any way you see fit. Please let me know if there are any questions not answered in this communication.

Sincerely yours,

Harriet L. Hardy, M.D.

Encl.
