MR. J.S. LICHLITER

Dear Mr. Lichliter:

Periodically we order Iodine-125 from Volk Radiochemical Company. This Albumotope is used in human and animal experiments by Dr. Saul Winchell. The most recent order, P.O. #1239802, was contaminated approximately 25% with Iodine-131 and was very detrimental to the experiments. Dr. Winchell has requested that we stop ordering Iodine-125 from Volk and place all future orders with E.R. Squibb Co, which has proved very reliable in the past. He also requested that Volk be advised of the contamination in the product and our change of supplier.

Sincerely,

Igor R. Blake
