BERKELEY: DIVISION OF MEDICAL PHYSICS
March 6, 1953

MR. ROBERT SAN SOUCI

Aren't there other collaborators at Davis like Max Kleiber and the man Dr. Berlin and I are working with up there too? Please give me a list of other people we're collaborating with at Davis — from Davis who have worked here too.

Yours sincerely,

John H. Lawrence, M. D.

MR. ROBERT SAN SOUCI

Another man who has worked here with us for several months is Dr. Benninghoven of San Mateo. He's the radiologist and chief at the San Mateo Hospital. Are there others we've missed? It seems to me that new ones come up every day. I certainly hope that we can work up a system from now on to have a list of everybody who has been here for one day to ten years.

Yours sincerely,

John H. Lawrence, M.D.
