BERKELEY: DONNER LABORATORY AND DONNER PAVILION

August 5, 1977

Dr. Patricia W. Durbin
74B-101
LBL

Dear Pat:

Sorry for the delay in responding to your memo of July 11 about director support for working up the past data that you and Joe Hamilton developed some years ago.

You did, in fact, discuss this with me, and you should not consider Andy's re-routing this memo as a turndown. He is simply putting it back into our normal system for forwarding through the Donner Lab channels. Our usual mechanism for applying for director's funds is to gather up whatever request we have within the department, give them to the Division Advisory Committee for their review and assignment of priorities, and then forwarding to Sessler's office.

Since you would have had to spend any money given to you in this fiscal year by the first of December, I suspect that it is not really useful to proceed during fiscal year of 1977. I suggest that you re-submit the application to me for a DAC consideration as early as possible so that we can put it on the agenda for fiscal year 1978.

We will have to discuss the partition of your time, and whether, in fact, additional money is really needed, but that's another issue.

Sincerely,

Edward L. Alpen
