Dear Dr. J. Slater:

We were pleased to have (patient's name) whom you referred to us for heavy ion radiography. She was here on Thursday March 17, 1977 and we obtained two carbon radiograph ^{views} views of each breast. These are being processed now. The results will be mailed to you in the near future.

We want to thank you for participating in the study and sending the patient. After receiving the radiography if you have any questions feel free to call.

Sincerely,

*Picchi

Dear Dr. Kaufman:

We have just taken a carbon radiography of Ms. [redacted] who was referred by Dr. James Slater. Ms. Anderson asked that I write you in reference to this.

As you know, under a grant from the National Cancer Institute, we are developing a new radiographic technique that is more sensitive than other techniques for soft-tissue detail.

As part of this study, a small series of mammographies are being done on volunteers. 3004957

CAT:
 This is the letter Dr. Sickles
 dictated to me yesterday.
 Would you care to add
 anything. He mentioned
 that it would be helpful
 to have the ladies (from
 LiA.) mammograms, perhaps
 their doctors would allow
 them to bring them w/ them.
 If there isn't enough time
 for the letters to reach them
 & their doctors - perhaps
 we could arrange this →

By phone?

Dear Dr. _____:

I had mammograms done at your office in _____ (date)

I am about to have a different kind of mammogram done at the Lawrence Berkeley Laboratory. The doctors in Berkeley would like to compare my old mammograms with those they are obtaining now. Therefore, please send my mammograms to Berkeley for evaluation to the address listed below.

example: Dr. Cornelius A. Tobias, PhD
Or Nurse Administrator
Building 10, Room 202
Lawrence Berkeley Laboratory
1 Cyclotron Road
Berkeley, California. 94720

Upon completion, the mammograms will be mailed back to you.

Thanking you for your assistance.

Sincerely,
