RE: HUMAN USE REVIEW

Please refer to your memo of August 16, 1976 on this topic. Dr. Alpen is concerned that the memo does not correctly delineate the limited responsibility of the Human Use Committee.

Identification and submission for review of all research activities involving human subjects is the responsibility of investigators, their Divisional Associate Director, and the Associate Director for Administration. The role of the LBL-HUC is to review and advise on those projects which are submitted to it.

With this distinction in mind, Dr. Alpen and the Chairperson of the LBL-HUC are in agreement to the procedure for handling questionnaires referred to the LBL-HUC.
