OFFICE OF THE DIRECTOR

Mr. Lester Rogers, Director
Directorate of Regulatory Standards
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. Rogers:

In response to your letter to R. J. Hart of October 3, 1974, and pursuant to discussions between Mr. R. E. Alexander of your staff and members of the Health Physics Division staff, we are submitting a program and budget proposal to provide documentation of a computer code useful in bioassay programs dealing with plutonium. The request for FY 1975 funding of \$20,000 is based on the estimated cost to prepare a report which will provide detail and instructions sufficient to permit independent setup and operation of the code by other potential users.

Sincerely,

Herman Postma
Director
