Argonne Cancer Hospital Operations

IN RE:

I have arranged that a schedule of the expenditures through March 31, 1952 under the Argonne Cancer Hospital Operations account be sent to Dr. Jacobson and to your office. You will also receive copies of future monthly statements.

As to 1952-53 operations, my understanding is that a budget has been set up as a guide with reasonably definitive amounts established for the various programs. You are handicapped in writing contracts because of the lack of definite accounting codes and numbers. Last Friday I raised the question with Dr. Jacobson as to whether we should attempt to solve this problem before Mr. Thaggard returns from vacation in the latter part of this month. With his approval I am proceeding on the basis of our getting together on this phase shortly after Mr. Thaggard returns. At that time we shall restudy the whole question of how to handle the accounting for the new hospital.

I believe the above two matters represent the problem you had in mind in our telephone conversation last Friday morning. If I have omitted anything please let me know.
