SUBJECT: Human Subjects Approval Request, Navy Reimbursable Proposal, Measurements of Pulmonary Gas Rates in Man

This memo is to inform you that your request for the use of humans in the subject proposal was considered at the June 13, 1980 meeting of the LLNL Human Subjects Committee. The Committee has determined that more information is needed before approval of this study can be granted and requests that you supply the following:

1. An approved Operating Safety Procedure.
2. Clarification of dosage in step 2 of your procedure, and the parameters used in that calculation.
3. Human use approvals issued by the Navy for this project.

As soon as this information is received, another meeting of the Committee will be scheduled for further review of this study.
